OUR ENGAGEMENT MODELS

We understand that all the projects have different requirements and thus we provide them with various engagement methodologies.

FIXED PRICE

The fixed price model is ideal for urgent or small-sized projects. It fits perfectly for the projects that has a limited scope with clearly defined specifications which would hardly change.

TIME AND MATERIAL

Time and material is best suited for mid-sized, complex, and long-term projects. It's ideal for projects which require support & maintenance at bug fixing or testing stage.

DEDICATED TEAM

Dedicated team approach is best suited if you're looking for a long collaboration on a complex project that will begin from scratch. This is best suited for projects that fall under the sphere of Fintech and blockchain technology.
